

Product Description/Use: Developed in 2004, Fogtech®DX contains a fast evaporating liquid that is applied to plastic or glass optics. Typically Fogtech®DX is used to absorb the moisture coming from the air or the person that would, in the right conditions, be deposited onto optics as a fog or a mist. This mist can obscure vision resulting in unsafe conditions or cause the worker to remove their eye protection. Fogtech®DX surfactants absorb this moisture and spread it into a transparent layer so that vision is essentially unimpaired.

Application Technique: Fogtech®DX is wiped as a wet coat onto the fogging side of protective optics with a soft applicator and left to dry clear. Buffing or rubbing is not required or recommended as that will impair the performance and clarity. Fogtech®DX may be completely removed with plain water or a damp cloth.

Duration: Fogtech®DX generally will protect against fogging for 3 to 5 days. However, the duration of the antifog effect depends on humidity, temperature, airflow and the amount of effort/perspiration. We find it best to test Fogtech®DX on protective optics and in the user's environment to better determine longevity under real world conditions.

Cost vs Benefits: Fogtech®DX is more expensive than most other anti-fogs on the market. However, Fogtech®DX is often much more cost effective for several reasons:

1. Fogtech®DX applies in seconds saving valuable employee time.
2. Fogtech®DX enjoys consistent and longer lasting performance due to its application method and unique ingredients. There is no buffing or guesswork on how much to use. This means the employee will be safer with clear vision. They also won't need to stop work and reapply as often.
3. Because there is no need to spread or buff off excess active ingredients, your PPE will last longer.

Limitations: Fogtech®DX is effective on all plastic and glass optics. However, some prescription lenses or lenses with advanced coatings (such as Alize®, Crizal® or similar) are designed to reject topical solutions, water and oils. These coatings will reject Fogtech® and all other anti-fogs. Also, if Fogtech® is used in freezer applications below about 20° F., the water absorbed may freeze and obscure vision. Fogtech®DX contains water soluble silicones so avoid applying around surfaces that are to be painted or coated.

Packaging: Fogtech®DX is supplied in individual use packets each containing 1.3 grams (1.6 ml.) of liquid.

Shipping: These packets can be shipped anywhere on all carriers (surface or air) without restriction or special markings.

Fogtech®DX Warranty/Shelf Life:

MotoSolutions warrants that within 5 years from date of manufacture, if Fogtech®DX anti-fog is applied in accordance with instructions and the user experiences fogging on their optics, we will refund the full product cost. We may ask that the unused portion of the product be returned to the point of purchase. There are no warranties which extend beyond this written warranty. This warranty is in lieu of all other warranties, express or implied. Any implied warranty of merchantability or fitness for a particular purpose is hereby excluded. In no event shall MotoSolutions, nor any retailer or distributor, be liable for any incidental or consequential damages.

Fogtech® DX Instant Anti-Fog

Name: Boxed Fogtech®DX Wipes

Stock Number: FTBXD100

UPC: 896108000338

NSN: 6850-01-552-5119

Description: 100 DX wipes in (wall or counter) dispenser box.

Packaging: Ten dispenser boxes 6 x 5.5 x 3 in. @ .8 lbs ea. in 200# test corrugated case 16 X 11 X 6 in. @ 8.0 lbs.

Name: Bagged Fogtech®DX Wipes

Stock Number: FTPKD100

UPC: 896108000321

NSN: 6850-01-552-5126

Description: 100 DX wipes sealed in labeled poly bag.

Packaging: 10 bags in case @ 12 oz/bag. 200# test corrugated case is 12 x 9 x 8 in. @ 9.1 lbs.

Name: Retail box Fogtech®DX Twelve Pack

Stock Number: FTBXD012

UPC: 896108000352

Description: Twelve DX wipes in retail hanger box.

Packaging: Ten 12 packs each in 3.75 x 3.9 x 1.25 in. in shipper 7 x 5.5 x 4.5 inch @ 1.25 lb. Packed 10 shippers or 100 each in 200# test corrugated case in 17 X 13 X 13 in. @ 14.2 lbs.

Name: Bagged Fogtech®DX Wipes—CAMO

Stock Number: FCAMD100

UPC: 896108000390 (bag of 100) or 896108000369 (single)

NSN: 6850-01-552-5133

Description: 100 camo pattern DX wipes sealed in labeled bag.

Packaging: 12 bags in case @ 12 oz/bag. 12 x 9 x 8 in. Case @ 9.1 lbs.

Name: Fogtech® Camouflage Five Pack

Stock Number: FPCAM005

UPC: 896108000086

NSN: 6850-01-552-5133

Description: Five camo wipes in retail camo hanger box.

Packaging: Twelve camouflage pattern 5 packs each in 4.5 x 2.5 x 1 chipboard box in a 200# test corrugated shipper 8 x 5 x 5 inch @ .95 lb. Packed 12 shippers or 144 each in 200# test corrugated case 19.5 x 13 X 9 in. @ 12.4 lbs.
